This matter comes before the court on the Defendant's Motion to Compel Discovery (Dkt. 54). For the following reasons, the motion should be granted in part.

It appears to the court, and the court finds, that information requested is material to preparing the defense in this case.

- Some measure of the length of the visits (e.g., total time all visitors were connected to the site; average time visitors were connected to the site);
- A summary of any measures that were taken by the FBI or other law enforcement entities to block access to the pictures, videos and links available on or through the site between February 20 and March 4, 2015;
- The reasons the site was shut down on March 4 (rather than earlier or later); and
- All documents relating to review and authorization of the FBI's administrative control of the site by the Department of Justice or other governmental agencies that were involved in the "Website A" investigation and deployment of the NIT as issue in our case.

1        Provided however, if the plaintiff cannot produce the exact picture, video and link totals  
2 listed above with reasonable effort, the plaintiff should provide a good faith estimate of the  
3 totals.

4        Provided further, that the government need not provide to defense counsel any documents  
5 under the above requirement that constitute reports, memoranda, or other internal government  
6 documents made by an attorney for the government or other government agent in connection  
7 with investigating or prosecuting this case FRCP 16(a)(2).

8        The subject material should be submitted to the defense by the plaintiff on or before  
9 January 8, 2016.
